C.S.I.R.-CENTRAL BUILDING RESEARCH INSTITUTE

(A CONSTITUENT ESTABLISHMENT OF CSIR)

रुड़की-247667 (उत्तराखण्ड), भारत
ROORKEE- 247 667 (UTTARAKHAND), INDIA

No.: CBRI/enq/11/16

Dated: 21.11.16

To whomsoever it may concern

On the request of Chairman, Shivalik Public School, Laksar Road, Dhandera, Roorkee, School building was checked and inspected for the following purpose:

- Construction, Quality and Safety Measures
Building is having class A construction and 6-7 years old and safe for school purpose as is 'A' class construction carried out as per safety measures. On inspection, it was observed that necessary safety measures are carried out.
- Building is having proper installation of fire extinguishers and thus able to meet out fire eventuality.

It was informed by the Principal that class IV employees are well trained for fighting and school is having an inspection report from Fire dept. and on our inspection, we found the arrangements in order. School is having R.O. System for pure water, which is safe for students and staff besides proper sanitation. On inspection, building is found perfectly safe construction with proper fire, sanitation and drinking water.
